

Vocabulary Support Program

Are you looking for ideas to freshen up the way your students practice their vocabulary words? Try using our Vocabulary Learning Link videos to help! These games can be used across the curriculum for any vocabulary words your students need to master. The goal of Learning Link by Connected Class is to create partnerships between the classroom and home environment. You can engage the students in play during class and send the videos home in an email through our easy-to-use platform so that parents have a demonstration of how to play.

If you have weekly vocabulary exercises in your classroom, why not make one of the days a game day with the vocabulary words? Introduce the game to the students and play in the classroom. Once the students have played the game, send the Learning Link home to the parents. The students will be excited to practice with their family.

Here is a sample weekly schedule for practicing vocabulary words:

Monday	Tuesday	Wednesday	Thursday	Friday
Introduce words to the students, and students draw a picture that represents the word.	Students write a definition for each vocabulary word in their own words.	Introduce the Learning Link game. Play as a whole group to make sure they understand how to play. Send the Learning Link video home for extra practice . Vocabulary Swat Hats Off to Words Tic Tac Vocab Vocabulary Pictionary	Students write sentences with their words.	Test or vocabulary games
